MR. MCKENZIE ON GENERAL MAHONE -In an interview in this city vesterday with a correspondent of the New York Herald Mr. Lewis M. Ker zie said :

Mr. Lawis McKatze, who was a member of the Forty first Congress, for several years between Big Hunting creek and Mt. Vernon, a member of the Virginia Legislature and a republican elector from the Eighth district, is highly indignant and in open rebellion against the runvirat, Mahone, Quay and Clarkson Speaking of the President he

said; 'I don't see how he could have been persuaded to take sides sgainst so many true and tried republicans in favor of the usurp-Speaking of the outlook in the cam paign, Mr. McKet zie said : "As regards the parget contest in Virginia it is useless to conceal the fact that Mahore is already desent chairman, will hold on. feated. His course towards those whom he terms the kickers has been so outrageous and unpardonable that while many of them will not vote the democratic ticket they will let the democrate vote alone, while they be the democrate vote alone, while they remain away from the polls—not that they have any love for democracy, but they have sought in vain for other remedies. Mahone sought in vain for other remedies. Mahone sition as a passenger brakeman on the A. will not study the experiences of others of & W. Railroad. his kind. He is headstrong, obstinate and dictatorial and will have his own way, cost what it may. The national committee, headed by Senator Quay, Clarkson & Co., agreed with General V. D. Groner, John S. Wise, D. F. Huston and myself that it was eminently proper to adopt the proposals made by the above paraed gentlemen—that for Messrs. Armstrong and Johnson. in the interest of harmony the persons calling meetings to elect delegates, and also calling district conventions to order should not designate the temporary chairman, but that the selection of said chairman should be left entirely to the convention. Although the entire national committee agreed to this as fair and just and gave assurances that Ma-hone would be governed by it, he treated the proposition with contempt and went so far as to express his contempt for the opposition. To any reasonable, fair minded man those demands suggest simply honesty and fairness. The result was that his tools ran roughsnod over the majority of the republicaus in many places, notably here and in Norfolk, calling ward meetings for eight o'clock, p m. and holding them at seven o'clock, and has tily appointing their delegates to the con-Would such conduct be submitted to any free State. Look at the treatment of our committee of 200 from all sections of the State, not office seekers, who laid the matter before the President as far as he would listen. Quay and Clarkson pretend ed to try to arrange everything satisfactorily put it was evident that Mahone would not be bound by any sgreement, if made. Nor was he, nor will be be until he is snowed under by the true republicans of Virginia It is a pity for the administration that it must be so. Why, he had lost the State for Harrison by his attempt and desire to de-feat Langston in the Fourth Congressional district. The dissatisfaction is widespread and is among a class of men throughout the S ate who can be neither bought, bribed nor whipped into supporting him. He made his convention, now let him make his election sure. Here is a letter saying no doubt the national committee did the hest they knew how. I say they have done the worst. I wrote them that it wasn't worth while for them to be pushing Mahone's cart, for he's a goner. You re member when he was on the fence, do you not? He wrote to everybody in Virginia to vote for Hancock for President in opposi-

his election. He will be beaten by 30 000 or 40 000 votes." COUNTY DEMOCRATS - Under a call of the executive committee of the county, meetings were held in the several districts of the county last night. The meeting was organized in Arlington district by the election of T. C. White as chairman and J. E. Clements. as secretary. Randolph Birch was elected delegate, with A. W. Nourse as alter-

tion to Garfield, and Brady was at the bot tom of it. Now if Hancock had been elected.

MONETARY AND COMMERCIAL.

The bad weather of the week has had a depressing effect on business, and there is a great complaint of dull times. The wheat crop, which is now being handled, is putting comparatively little money in circulation, for the reason that the condition of the wheat is so poor that the lowest prices are being paid for it, and many farmers are being brought in debt There is no change in rates for money or in prices of local stocks. In Baltimore yesterday the money market was quiet and easy. Loans we:e quoted at 41655 per cent. per annum.

NEW YORK, Sept 13 -The stock market was nausually quiet at the opening this morning, and first prices, as compared with those of last evening, were steady. The business done was very small for the first hour, and the fluctuations in prices were on the same limited scale, while the general tendency was downward. The decline was checked late in the hour and the greater por tion of the early losses was recovered. At eleven o'clock the market was fairly active and firm to strong at close to the opening prices.
